LEAF AND DEBRIS VACUUMS

TUFF VAC 4000

27 HP Kohler electronic fuel injection has excellent access for service. Removable gas tank makes fueling in remote areas easy.

Tanks to the wireless remote system. Control throttle, pick up head and unloading at your fingertips.

Hydraulic counter rotating brush provides superior performance on hard to pickup materials such as pine straw.

Unit comes standard with extreme duty wire impregnated sweeping brushes. A bristle brush is also available to brush debris & bent grass. Optional free swinging knife rotor replaces brush rotor for dethatching and verticutting applications.

50% more exhaust area means more vacuum and less clogging than competitors machine.

Optional hand held pickup hose allows operator to access areas the vacuum head can't reach.

Hydraulic door makes operator more productive by keeping them in the drivers seat.

P.T.O. driven.
H.P.requirement : 30 HP minimum
